Joshua Lederberg, M.D.  
School of Medicine  
Stanford University  
Stanford, California

Dear Dr. Lederberg:

*Joshua*

I am finally catching up with my mail following several extended trips to meetings and have found your notations in reply to my request of April 21, 1967, together with the xerox copy of your series of articles for the Washington Post's "Outlook" for January 1, 1967-April 30, 1967. I think that these are splended commentaries with many good insights. Many thanks for your generosity in sending them all to me. If you are continuing this series kindly have your secretary send along another collection later in the year so that I and my colleagues may become better informed. With all good wishes for your continued good health and good fortune.

Cordially,

*Henk*
